patches received by it or not otherwise cred-  
ited in this paper, and also the local news  
published therein.Providence was with the steamer  
Providence. Some virtue, perhaps, in a  
name.All the reservoirs and springs must  
be full to the brim by this time, and  
ready for the summer's demands.The opera bouffon now being staged  
in the oil districts of Mexico is calcu-  
lated to make an interesting plot for  
some comic opera but hardly sufficient  
to prick the complacency between the  
United States and Mexico.The next time anybody is asked to  
put up the money to go digging for  
the Jesuits' treasure buried 300 years  
ago, they will answer, Wye, what's the  
proof of the existence of the treasure?  
In other words, they will recall the  
unsuccessful Wye river search. They  
might as well go digging for the pot of  
gold at the base of the rainbow.

## "ALL ON BOARD SAFE."

The accident to the coast steamer  
Providence off the New York-Fall River  
line when the ship struck a ledge near  
the entrance to Narragansett bay  
turned out to be little more than an  
incident, albeit there were the poten-  
tialities of a disaster in the occurrence.  
That the passengers maintained col-  
lected minds and that the Providence's  
distress signals were promptly an-  
swered were the two chief features  
contributing toward making the acci-  
dent an incident. The absence of panic  
among the nearly three hundred pas-  
sengers on the steamer and their wil-  
lingness to respond to the orders of  
the ship's officer enabled everyone of  
them to be taken off the stranded  
steamer without mishap to any of  
them as the rescue ships came up  
promptly. So, instead of a great dis-  
aster, the public was privileged to hear  
of an orderly rescue of every soul on  
board ship and the subsequent release  
of the steamer from its predicament  
and its entry into port for repairs.  
The news was a delightful contrast  
to some of the sorrowful tales of the  
sea.Our straws lead the list

F. H. Rogers &  
CompanyThe Old Reliable Makes  
Another RecordWe are proud to announce the remarkable showing of an increase in our sav-  
ings deposits from January 1, 1922, to the present date of over \$150,000. This,  
at a time of unusual business conditions when nearly all of the banks in the  
State have barely kept even in deposits, many having lost heavily, seems not  
only to reflect the extent of public confidence which this bank enjoys but also  
the splendid recuperative power of one of the best business towns in Ver-  
mont—Barre.Our deposits now total \$2,510,903.00, by far the largest of any Nation-  
al Bank in the State. The number of new accounts in our Savings Department  
from January 1, 1922, to the present date total 624, over four new savings ac-  
counts for every business day of the six months' period.The whole country has been undergoing a process of economic readjustment  
in the endeavor to get back to sound normal business conditions, a process now  
generally believed to be well on the road to completion. In this process Barre  
has probably actually suffered as little as any community in Vermont of equal  
importance industrially.In spite of these extraordinary conditions the past six months' period, not  
only in new business but in actual profits, has been one of the most success-  
ful which we ever enjoyed. In view of this fact, brought about in some degree  
by the loyalty of the stockholders who have invested their money in the bank  
at a very small return for a number of years, the directors at their meeting  
on June 28, 1922, voted to pay the regular cash dividend of 3½ per cent and an  
extra dividend of 1 per cent to stockholders of record at the close of business  
on June 30th.The directors of this bank, all active business men, have given unsparingly  
of their time for many years without compensation of any kind and now they  
receive only a nominal fee for attendance at meetings, which fee is not paid on  
non-attendance.Out of the net earnings for the past six months they have charged off \$10,000  
from the New Banking Rooms Account, leaving this now only \$10,000, which  
they hope to wipe out six months hence. They have also increased the Surplus  
and Undivided Profits Account from \$65,000 to \$75,000, making allowance for  
all contingencies. By increasing the Surplus and Profits Account, the reserve  
fund for the protection of depositors is kept in proper ratio to total deposits.We wish to take this opportunity to thank the public for their patronage,  
and give further assurance that the same conservative policy which has  
brought success to the bank will be continued without change in any respect,  
and without fear or favor of any person.

If YOU Don't, Who Will  
Take Care of You?When we strike the places where the going is  
a little heavy, we frequently notice that we get  
considerable sympathy, but substantial help is not  
easily found. Yet, we know friends so situated,  
financially, that they could help us. Do you know  
they got that way by small, but regular, deposits  
in banks such as our institution, where, every  
minute, the pennies are drawing interest?Make a way to assist yourself and the neces-  
sity is not likely to come. That's our experience.You know, putting off this savings idea is not  
very good business judgment. Small accounts  
are pleasant for us to handle.  
We know how they grow.

Lightning Knocked Chimney Off Fish  
House on Weston St.The severe shower of Thursday  
morning which came about three in the  
morning did much damage to the Fish  
house on Weston street, when the  
lightning struck the chimney, knock-  
ing it off and entering the house, do-  
ing some damage, besides affecting a  
boy who was in bed. It is not known  
just what the damage will be. At six  
the same morning an alarm of fire  
was given and it was found that the  
trouble was at the Salisbury mill,  
where the dust and ashes near the  
boiler were overheated, and in a short  
time would have started a brisk fire.  
No damage was done of any amount.The regular grange meeting was held  
on Saturday evening when the pro-  
gram was given: Report of the Pomo-  
na grange held with Summit grange,

alphabet given by members; piano

## Money Is Man-Power

The salary you earn, the income from your in-  
vestments is not merely money—it represents  
hours spent at labor. It is accumulated man-pow-  
er. Just as you intrust your body only to the most  
capable and experienced doctor you know, so the  
thinking man intrusts the fruit of his time and  
labor—his money—to a bank which is known to  
be strong and reliable.

## Solve This Puzzle

We know an old man who is worth about  
\$40,000.00 and he claims that he has never had a  
dollar given to him and that all his earnings com-  
bined are not more than his present wealth.And yet he has not saved all he has earned in  
a life time. What is the answer to this puzzle?It is all very simple. Early in his life he began  
to save at least 25c out of every dollar he earned.  
This money was deposited in the savings depart-  
ment of a bank and from time to time he made in-  
vestments when his funds grew large enough for  
that.This plan has been working for more than forty  
years. His total savings are only about \$12,000.  
The balance of his wealth is INTEREST MONEY.

Think it over.
